Full time and part time residents is impossible to tell from the information given. Some people obviously have a camp on the lake but no mailing address for it so there is only one address. Others give two addresses but neither is local. The only breakdown I have right now is 78 members give a year-round address and 50 members give two addresses.

One other problem is identification of town. Many people did not list a town. With a PO Box as the mailing address it is difficult to tell which town they are in. Also the village of Cooperstown is in two towns. Some people in the village listed the village as the town and others listed Otsego or Middlefield.
